

There were challenges and fun a-plenty during the two terms that the grade 5's experienced a healthy dose of life's ups and downs in Real Life 4 Kids. This game gives the children the opportunity to earn a salary and make lots of money. But along with that are fines and bills that need to be paid. Just when you think there is a quick way to earn money, then one discovers it is just a horrible scam to rob you of what you have. Properties and houses need to be bought and paid for. That house insurance that you ignored was actually necessary, as an army of termites devour your property!

*"Real Life 4 Kids was a nice game. It taught me how life is and it also taught me to save and know when to use money. What I liked about the game is that you get to explore and create things.*

*What I didn't like is the fines!" – Rose Mashilo*

Many thanks to all the learners and educators for their hard work. They rose to the challenge and in the process learnt so much about themselves as well as the impact that proper money management makes in one's life and in one's future.

#### **Real Life 4 Kids 2014**

Die graad 5's in "Real Life 4 Kids" het heelwat uitdagings en baie pret asook 'n gesonde dosis van die lewe se lief en leed gedurende die afgelope twee kwartale beleef. Hierdie spel gee die kinders die geleentheid om 'n salaris te verdien en baie geld te maak. Maar daarmee saam moet boetes en rekeninge betaal word. Net wanneer jy dink daar is 'n vinnige manier om geld te verdien, moet jy uitvind dit is net 'n aaklige bedrogspul om jou van alles wat jy het, te beroof. Eiendom en huise moet gekoop en betaal word. Daardie huisversekering wat jy geïgnoreer het, was eintlik nodig aangesien 'n kolonie termiete jou eiendom eet!

*"Real Life 4 Kids was 'n lekker spel. Dit het my geleer hoe die lewe is en dit het my ook geleer hoe om te spaar en te weet wanneer om my geld te gebruik. Wat ek van die spel gehou het, is dat jy leer verken en dinge skep het. Waarvan ek nie gehou het nie, was die boetes!" - Rose Mashilo*

Baie dankie aan al die leerders en opvoeders vir hul harde werk. Hulle het die uitdaging aangepak en in die proses so baie van hulself geleer sowel as die impak wat behoorlike geldbestuur in 'n mens se lewe en in 'n mens se toekoms maak.
