

REAL LIFE FOR KIDS

This is the fifth year that Grantleigh's Grade 6 classes have played the Real Life for Kids game. The game is a fun and innovative way of encouraging the development of valuable life skills. This game has added a "spark" to our classes and is thoroughly enjoyed by one and all. Students from the lower grades look forward to the time that they would be able to participate in Real Life for Kids in their Grade 6 year.

The game is a wonderful three-dimensional game – a board is provided on which the "town" develops and expands. The game can be played over a term, over 6 months or a year, depending on the teachers or classes involved and can be adapted to suit the teacher and the class. A user friendly handbook can be downloaded with detailed explanations of every part of the game and if assistance is required, Mr Waite responds quickly and efficiently.

There are so many facets to the game and so many skills that are developed eg group work, communication skills, literacy skills etc.

In fact, we cannot imagine NOT playing this game!

Mrs B. Leslie

Senior Preparatory Phase Head

Grade 6 Class Teacher
