**Re: Real Life 4 Kids**

King David Linksfield Primary School has been successfully involved with the Real Life 4 Kids program for the last 4 years. The program has been run each year with the Grade 5 group.

The children are active participants in building a town and learning about real life situations. The "buzz" in each classroom starts from the moment the pupils arrive at school each day.

Some of the immense knowledge gained by the pupils include managing their own on-line bank account, building bridges, learning about the responsibilities of owning a home and running a successful business.

The feedback from both the staff and pupils has always been overwhelmingly positive. We feel privileged to run such a worthwhile program. It has always been the highlight of the Grade 5 year.

Yours sincerely

The Grade 5 Teachers
